

## PRESIDENT'S MESSAGE

It's time to start thinking about dusting off the clubs! Minnewasta is shaping up to welcome us all back and we expect to the Course to be in great shape! The mild spring may even allow us to start golfing in late April, weather permitting. Stay tuned for our opening date.

Unlike last year, we will have our course back for the season! Unfortunately, the pipeline did have to do some additional work on the course, most notably on hole # 5, where they had to come back and tie in the lines across the creek. There will be some restoration required there, and may be some disruption on this hole while we get the fairway back into playing shape. The pipeline also had to repair one of their lines last fall between # 15 tee box and Hole # 8, so we have some repairs to complete there as well. As always, we ask for your patience and cooperation with work crews as they restore these areas to playing shape.

I will again be asking Marcel what the membership can do to help as far as volunteer work is concerned. Please check your emails and the website frequently to see if/when work parties are called and if you are able to help out, it would be greatly appreciated!

The Timbers restaurant is gearing up for the summer season as well. Look for our new Menu starting April 9<sup>th</sup>. Blue, Tim and their staffs are working diligently to ensure your dining experience at The Timbers is a memorable one. The Clubhouse Banquet facility has been busy year round and this summer will be no exception with Weddings, Tournament and other functions quickly booking up.

Chris is now in the Pro Shop and open for business. He is busy spring cleaning and preparing for the upcoming season, however, will welcome anyone who wants to drop in to pay their membership or look to buy some new technology for the upcoming season.

Our Semi Annual AGM is scheduled to Sunday, May 2<sup>nd</sup>. Check the website and your emails for more details in the next couple of weeks.

I am looking forward to a great season, and I hope you are as well!

Sincerely,

Brian Foster  
President
